

STEWARDS OF CHILDREN

SEXUAL ABUSE PREVENTION TRAINING

The Stewards of Children is a research based training; it is designed to help adults to protect children from child sexual abuse. This training is very helpful and informative, some of the areas covered are:

- What is child sexual abuse?
 - What are the signs and symptoms of abuse?
 - Who is committing this crime?
 - How victims and their families feel.
 - Practical steps you can take to protect your child and build a safer community.
-

Stewards of Children is a child sexual abuse prevention training program that educates adults to prevent, recognize, and react responsibly to child sexual abuse. The program believes and teaches that child safety is an adult's job. We believe this training is unique for the following reasons:

- This 2 hour training uses a DVD, interactive workbook and discussion to train adults to prevent, recognize, and react responsibly to child sexual abuse.
- The video component of this curriculum integrates personal stories of sexual abuse survivors, sharing their experiences of trauma and healing with the perspectives of professionals working with various issues of sexual abuse.
- Designed for parents, grandparents, community members, concerned individuals & groups that want to protect children. Good for organizations that serve children.
